

## Substitutes

They all have teacher voodoo dolls,  
And into them pins they stick.  
So when they want to work at schools,  
They can make the teacher sick.

*refrain;*

They ride submarines from a subtropic isle,  
Then they take a subway to your school.  
They can teach any subject to any subject.  
They know every class and rule.

verse 2

They might subvert a subpar teacher.  
They subscribe to the sublime Sub Way.  
At night they subside to their subtracted sub-base,  
To rest for the subsequent day.

*refrain*
